Fundamentals

Power is the essence of substance. Analogy survives amid diversity.
 The ACT of prehension and the PROCESS of abstraction generates more or less creative and biased experiences.
 The process of abstraction is a process of becoming, fueled by desire.
 Negentropy adwers entrophy in a regenerative deep learning system.

By defining creativity as the ability to realize a potential, some specific activ entity is needed to perform that task.
 In each act of creativity some amount of subjectivity will be transformed into the realized abstraction or UNIT of experience.
 Partiality is a function of creativity

Quantum information is the phenomenology of human experience.
 The actualization of potentialities, (collaps of w.f) is a free will decision of a consious field.

An isolated thing in empty space is a fiction. You can take a thing out of context but only into another context.
 Context is everywhere, everything is connected.

1. Everything in every thing.
2. Impression is expression too.
3. Beeing is characterized by not beeing.
4. We and our relationships are all there is.
5. Objectivity is an agreement.
6. Democracy respects disagreement.
7. Abstraction starts and ends in the concrete.
8. The concrete can not in total be abstracted.
